

I hope you are doing well. Thank you for talking with me at the SBU Career Fair. I learned a lot about Interactive Brokers LLC and the important work you do. Your focus on technology and finance really caught my attention, and it matches what I am interested in.

I have been working on a project called "Chrono Power Action" with nearly 20000 users. This is a browser extension that helps people use the internet more easily. In this project, I used tools like React and Typescript. It made my skills better and let me try new things in technology.

Interactive Brokers uses advanced technology to meet the needs of finance, which is similar to what I want to do. The things you focus on in your company connect well with what I have learned in my project.

I have attached my resume and some more details about my project. I hope we can work together, and I can learn and contribute at Interactive Brokers LLC. Again, thank you for your time and help at the Career Fair.
