

#### Yahoo (Internet & Software)

Yahoo has many products and services that I am interested in. And my experience is familiar with what Yahoo is doing on the internet.

What is Yahoo's biggest business now?

May I ask how you are doing in the gaming industry?

#### Unique Technical Services LLC (Automotive)

Although I haven't had much experience with transportation or hardware, I'm eager to learn these techniques.

How exactly does your technology apply to transportation?

Do you need more front-end or back-end skills?

#### Softheon(Internet & Software)

I think healthcare is a sacred profession and I want to help more patients through programming skills.

May I ask what your technology stack is? For example, what programming languages are primarily used?

I would like to know how extensive your medical deployments are?

#### LT Security Inc. (Electronic & Computer Hardware)

I'm interested in surveillance technology and graphics, and I'd like to enhance them by adding AI to the mix.

Are you considering adding AI to surveillance technology?

Do you have any involvement in the camera technology needed for autonomous driving?

#### LBi Software (Internet & Software)

I am a sports fanatic and I want to use computer technology to make more people love and know sports.

Can I ask if you are primarily a rebroadcast of sports information or do you produce first-hand information?

Do you work with any major league?
